

Happy New Year to all our alumni and friends, and welcome to the first e-bulletin of 2011, which brings you the latest alumni events, news, and updates from across the University.

Vice-Chancellor's New Year Message

The Vice-Chancellor has published a New Year message that can be accessed [online](#), and which covers the implications of the Government's recent decisions on university funding for Cambridge.

As he points out, there is still much uncertainty about the detail of the changes which will only become clear over the coming months. In the meantime, if you wish to respond to the Vice-Chancellor's message, please email alumnicomment@admin.cam.ac.uk or write to The Old Schools, Trinity Lane, Cambridge CB2 1TN.

CARO Events

Bregenz Opera Festival **Saturday 23 July & Sunday 24 July**

Seasoned opera fans and newcomers alike will enjoy the opportunity to visit the beautiful alpine setting of the Bregenz Opera festival for the new run of 'André Chénier'.

According to Artistic Director David Pountney (St John's 1966), it seems as though André Chénier was composed especially for the amazing floating stage at Bregenz. 'The opera presents a perfect mix of ingredients for the venue: a thrilling story and four strong characters, caught between the excesses of the Ancien Régime and the terror of the French Revolution.'

Alumni will also have the opportunity to see 'Achterbahn' (Miss Fortune) by British composer Judith Weir (King's 1973); the first in a series of newly commissioned operas to be performed at the Festival House.

Quasars shine a light on the earliest stars

New research is bringing astronomers closer to unlocking the 'dark ages' of the cosmos.

Astronomers can now look back in time over almost all of the 13.7-billion-year history of the universe, from the present epoch to when the universe was still in its infancy, thanks to ever-more powerful telescopes that detect light reaching us from billions of light-years away.
